RE:	**Upcoming construction activity at Centre Street and River Road (September to November 2009)**	FAX NUMBER:	
	Hours of Work : 8am to 6pm, Monday to Friday		

Dear Resident,

This letter is to advise you that Tyam Constructed Ltd. has been retained by Delsom Estates to install a storm sewer main on Center street to on outfall on River Road (see attached plan) in conjunction with the servicing of the Delsom project. Construction is expected to start on Sept 3 during the hours of 8:00 am to 6:00pm and is anticipated to be completed in approximately two to three months.

The storm sewer works are significant and will results in temporary road closures on Center Street which will require detouring of traffic. Detour routes will be clearly marked within the neighbourhood and construction works will not start until 8:00 am to minimize impact during the morning rush hour.

Our focus is to minimize the effect of our work on traffic and the neighbourhood, and therefore we ask for your co-operation and patience during this time. Detour routes will be clearly marked within the neighbourhood.

We will notify you directly a day or two ahead if work will significantly affect your property to make suitable arrangements for access.

We look forward to working together to completing this work as quickly, safely and efficiently as possible. Contact Colin Boston of Hub Engineering @ 604-572-4328 or Rob Latimer, Tyam Superintendent, @ 604-830-4216 if you have any concerns.

Best Regards,

Kurtis Gowler
